BIMADINE POWDER

Sulfadimidine 25g

PRESENTATION

White polythene/aluminium sachets containing a white or almost white powder which is intended, following suspension in drinking water, for oral administration to animals. Each sachet contains Sulfadimidine 99.01%w/w.

USES

For the treatment and control of diseases in monogastric calves caused by or associated with organisms sensitive to sulfadimidine.

DOSAGE AND ADMINISTRATION

For oral administration.
Recommended dosage
2g per 10kg bodyweight (equivalent to 1 sachet per 125 kg bodyweight), followed by daily doses of 1g per 10kg bodyweight (equivalent to 1 sachet per 250 kg bodyweight) for a further 2 days only.

CONTRA-INDICATIONS, WARNINGS, ETC.

For animal treatment only.
Not to be used in animals known to be hypersensitive to the active ingredient. The procaine of procaine penicillin and local anaesthetics of the procaine group are antagonistic and should not be used during treatment. There is interaction and antagonism between sulfonamides and vitamin B complex. As with all sulphonamides, prolonged treatment may give rise to Vitamin K deficiency, agranulocytosis and haemolytic anaemia and should therefore be avoided.

WITHDRAWAL PERIODS

Animals must not be slaughtered for human consumption during treatment. Animals may be slaughtered for human consumption only after 28 days from the last treatment.

PHARMACEUTICAL PRECAUTIONS

Keep out of reach and sight of children. Do not store above 25°C.
